2. Turn the LINE IN/MP3 and MASTER button to the minimize level.
3. Insert a SD card or USB memory storage device.
4. Turn the LINE IN/MP3 and MASTER button to a suitable level respectively.

Note:MP3, cellphone, ipad and PC can't be read by USB. You may connect them by BLUETOOTH or LINE IN function.

Bluetooth Usage

1. Turn on the power.
2. Turn the LINE IN/MP3 and MASTER button to the minimize level.
3. Keep pushing the MODE button to find BLUE.
4. When in BLUE mode, the display will show BLUE.
5. Connect the device with BLUE function.
6. Turn the LINE IN/MP3 and MASTER button to a suitable level respectively.

When in the BLUE mode, you can connect your bluetooth device such as ipad, iphone or PC to the amplifier. Note: Remember to turn up the volume of the connected device to a suitable level for a good sound effect.

MIC Directionns

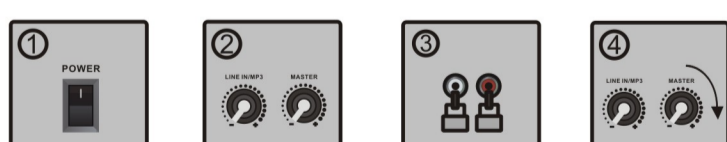

1. Turn on the power.
2. Turn the MIC IN and MASTER button to the minimize level.
3. Use 1/4" input jack Mic to insert.
4. Turn the MIC IN and MASTER button to a suitable level respectively.

3

4

LINE IN Mode

1. Turn on the power.
2. Turn the LINE IN/MP3 and MASTER button to the minimize level.
3. Connect the music source unit to the RCA inputs marked LINE IN.
4. Turn the LINE IN/MP3 and MASTER button to a suitable level respectively.

You can use the LINE IN function when you wish to link up an additional stereo signal source without the use of a mixer console. Like CD players, DVD music plays, MP3 players etc.

Note: Remember to turn up the volume of the connected device to a suitable level for a good sound effect.
